

MORROW'S ELECTION IS CERTAIN

Republicans Lead In Kentucky By 15,000 Majority

WALKOUT OF MINERS IN KY. COAL FIELDS

20,000 Are still out. Gen. Palmer Says Law Must Be Enforced.

Pineville, Ky., Nov. 3.—Eastern Kentucky miners to the number of about 20,000 are still out in obedience to the strike order, about the only mines now in operation in this end of the State being those at Lynch and Benham, and some operations around Hazard, in Perry county. The miners at Lynch and Benham are not organized, and reports from these fields are to the effect that the mines are running at full speed.

In the Elkhorn fields practically the entire force is out on a strike and in this immediate vicinity, with the exception of a few so-called wagon mines, all the operations have ceased.

Central City, Ky., Nov. 3.—With the exception of the four counties of Christian, Hopkins, Union and Webster, the mines in the Western Kentucky field are closed, but perfect order prevails.

Lynch, Ky., Nov. 3.—The mines of

the United States Coal and Coke Company at this place are operating and according to the statement of mine officials, will continue to operate, as the workers have refused to obey the strike order.

Washington, Nov. 3.—Attorney General Palmer today informed coal miners who protested against the strike injunction that the government stood ready "to do everything in its power to facilitate an inquiry into the merits of the controversy, but in the meantime the law must be enforced and combinations to stop production cannot be tolerated."

Mr. Palmer's statement, made in reply to a telegram from the union local at Glencoe, O., to President Wilson, was taken to indicate that no attempt would be made by the government to settle the wage controversy until the strike was called off.

LAND SALES ON A BOOM IN WEBSTER

Farm Lands Bringing Good Prices—Big Live Stock Deals Transacted.

Webster, Ky., Nov. 3, 1919. (Special)—Like a number of other towns in Breckinridge county Webster is having a boom in real estate deals. Farm lands have been changing ownership and have brought excellent prices with the deals.

J. H. Hays has bought C. Hatfield's farm of 130 acres for \$2,500. C. Hatfield in turn bought from Horace Hatfield, 160 acres for \$3,500.

Camp Henderson sold his farm to J. D. Lyddan. Consideration unknown.

Not only is land bringing good prices in this community, but live stock seems to be valued high too. Vic Robertson recently purchased two mules at \$600 each from Harry Norton and Mike Lyddan. Mr. Robertson sold John Lyddan a fancy walking horse at a fancy price.

TO HONOR LOCAL POSTMASTERS

He May Wear a Distinguished Service Pin Awarded by U. S. Treasury Department.

Postmaster Lightfoot, of this city, is in line for a "Distinguished Service Pin" that may be conferred on him by the U. S. Treasury Department.

This insignia of honor is a beautifully lettered gold pin, with a blue enameled border, bearing the words "Distinguished Service, Treasury Department, Savings Division." The pin has the same intrinsic value as the Distinguished Service Awarded by Congress.

The honor of wearing one of these pins is confined to the postmaster who causes to be sold between November 3rd and December 6th the quota of Treasury Savings Certificates allotted to his office.

In cities with a post office of the first class the quota is \$5,000 of either the \$100 or \$1,000 Certificates. Second class offices should sell \$4,000, third class \$3,000 and fourth class offices \$2,000.

The postmaster may also cause the honor to be shared by any attaché of his office, who will perform the service required. FLOOD PLAYS HAVOC WITH CORN CROPS

Back Waters Inundating Corn Fields and Hundreds of Dollars Lost. Rise Still Coming.

Farmers of this section of the community whose corn crops are on the river and creek bottom land will suffer the loss of hundreds of dollars from the heavy flood in the Ohio river and Clover creek. Much of the corn around here has been cut and still in the shock and will be damaged more than that which had not been cut. But there were a few farmers who were able to save their entire crops by working day and night. A lot of fodder and pumpkins have been swept away with the flood too.

The river men report that the Ohio has risen 30 feet. It is expected to have 12 feet more of rise, 6 feet of it coming Tuesday and Wednesday

morning there will be a slow rise of about 6 feet. The rains have been general and the flood comes from the upper tributaries of the Ohio.

Clover creek is out of its banks, and the farmers of Cloverport who have creek bottom land have all been touched in some measure by the rise. John and Irvin Beavin, croppers on Isadore Popham's farm had 200 bushels of corn and lost about one-third of it. Joe Thompson, who is another cropper on the same farm, lost between 150 and 200 bushels of his corn crop. James and Ernest DeJarnette were among the losers too.

SURVEY PARTY NEARING HERE

Federal Highway Surveyors Cutting Out The Curves And Disappointing Folks.

The survey party of the Louisville-Paducah Federal Highway speeded up some last week although they lost some time on account of the rain. The party has reached Grahampton in Meade county and will be in Brandenburg, the latter part of this week. The camp belonging to the surveyors will be moved this week.

Contrary to the expectations of a lot of people who are on the route of the highway and who hoped to have the road passing in front of their homes, they are going to find keen disappointment in having the rear of their homes facing the highway instead of the front, as often the line runs several hundred yards away from the old road.

In place of following the usual road that often goes a mile out of the way the survey takes a bee line over hills and fills in order to shorten the distance and cut down the building of useless miles of road.

After the survey party leaves Brandenburg, they will speedily come down through Breckinridge county.
